## COMMERCIAL AND INDUSTRIAL PROJECTS BUILDING FEES

In order to assist you in estimating the permit fees for your project, several tables and charts have been compiled and are included in this package. By following the steps listed below, a reasonable estimate may be made.

**THESE FEES ARE FOR ESTIMATION PURPOSES ONLY. ALL PLANS MUST BE SUBMITTED AND APPROVED BEFORE OFFICIAL FEES CAN BE ASSESSED.**

**STEP 1-** Find the type of project below and determine the plan review and inspection fee. Add these two fees together and it will determine the permit cost. Note that a separate permit is required for each independent structure, even though they may be located on the same parcel.

Industrial users, as defined by VWWRAs fee ordinance, may need to contact VWRA directly for a calculation of connection fees.

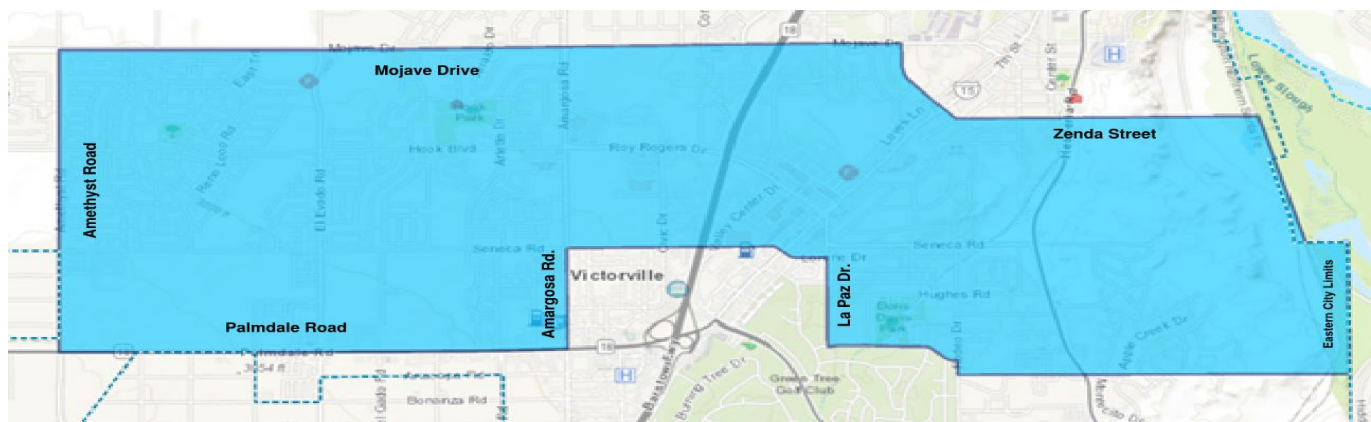

**Strong Motion Implementation Program (SMIP) Fee** –Please refer to most current August Edition of the Building Valuation Data charts as published by the ICC for the project valuation chart. Once the valuation is determined, \$13.00 per \$100,000 valuation will be charged. Projects with a valuation less than \$100,000 will receive a SMIP fee of .50.

**Technology Fee** – Multiply the Plan Review and Building Permit fees by 4.6% (.046) to determine the Technology Fee.

**Green Building Fee** – Senate Bill 1473 which provides for the creation of the Building Standards Administration Special Revolving Fund.
