- The business must establish and maintain employee best management practices when handling FOG such as: dry pot wiping prior to washing, proper disposal of cooking oil, maintenance of kitchen exhaust filters, proper disposal of food waste and solids in plastic bags. \_\_\_\_\_(initial)

**Notice:**

- This is an APPLICATION FOR A GREASE INTERCEPTOR OR GREASE TRAP PERMIT and does not give the right to conduct business or make alterations to the structure. (Alterations require a permit).
- A City Business License and Certificate of Occupancy is required.
- A Grease Trap Service Manifest is required to be submitted to the Code Enforcement division upon servicing the interceptor or grease trap.
- It is the business owner's responsibility to ensure the grease service manifests are submitted to the City to ensure compliance.
- The business owner shall allow City personnel access to inspect the grease trap or interceptors for service and equipment maintenance standards.
- The service frequency will be every 90 days initially for every new permit and at the discretion of City personnel. Request for a change in service frequency requires a written recommendation from the servicing provider.
