Permission to Land Procedures

Southern California Logistics Airport (KVCV) is designated as a "user fee airport" [19 CFR 122.1(m);19 CFR 122.15].

Pilots must secure permission to land by contacting CBP prior to departure from the foreign airport and at least one business day in advance of the anticipated arrival time at KVCV. Permission to land is granted with a tolerance of (+/-) 30 minutes. If your ETA deviates outside these parameters, previously granted permission(s) are invalid and you must contact the CBP port to re-secure permission to land.

Inspection Process

- Pilot must follow the direction of the ramp agents, who will marshal the aircraft to an available space.
- If the aircraft lands and CBP Officers have not arrived, the aircraft commander shall hold the aircraft, and any merchandise or baggage on the aircraft for inspection. Passengers and crewmembers shall be kept in a separate place until CBP Officers authorize their departure.
- All crew and passengers will be processed inside the FIS, unless otherwise instructed.
- Be prepared to present passports, visas, pilot's license, medical certificate, aircraft registration, and user fee decal (if appropriate).

Special Procedures/Miscellaneous

- All updates to flights must be done by telephone.
- Advise CBP if transporting live animals, weapons, hunting trophies, or commercial imports.
- Failure to notify CBP of a cancellation of an arrival may result in denial of future permission to land requests.
