

# Site Selection, Assessment, and Guidelines:

## Stationary Sidewalk Vendors

### Stationary Vendor Guidelines

Engineering Department objective safety elements for site assessments:

- Roadway must have sidewalk (ADA)
- Vendor clearance of 50 ft. from driveways for motorist safety
- Not within 500 ft. of schools, between 8:00 am and 10:00 pm, for motorist and student safety
- Distance restrictions to traffic signs

Sight Distance and Operation Limitations:

- Within 150 ft. of an intersection
- Within 50 ft. of a public/private vehicle drive approach
- Within 25 ft. of clear space on sidewalk

Fire hydrant access and ADA accessibility

- Maintaining 4 ft. of clear space on sidewalk

Availability of street parking is required so street vendors customers to not obstruct through traffic lanes

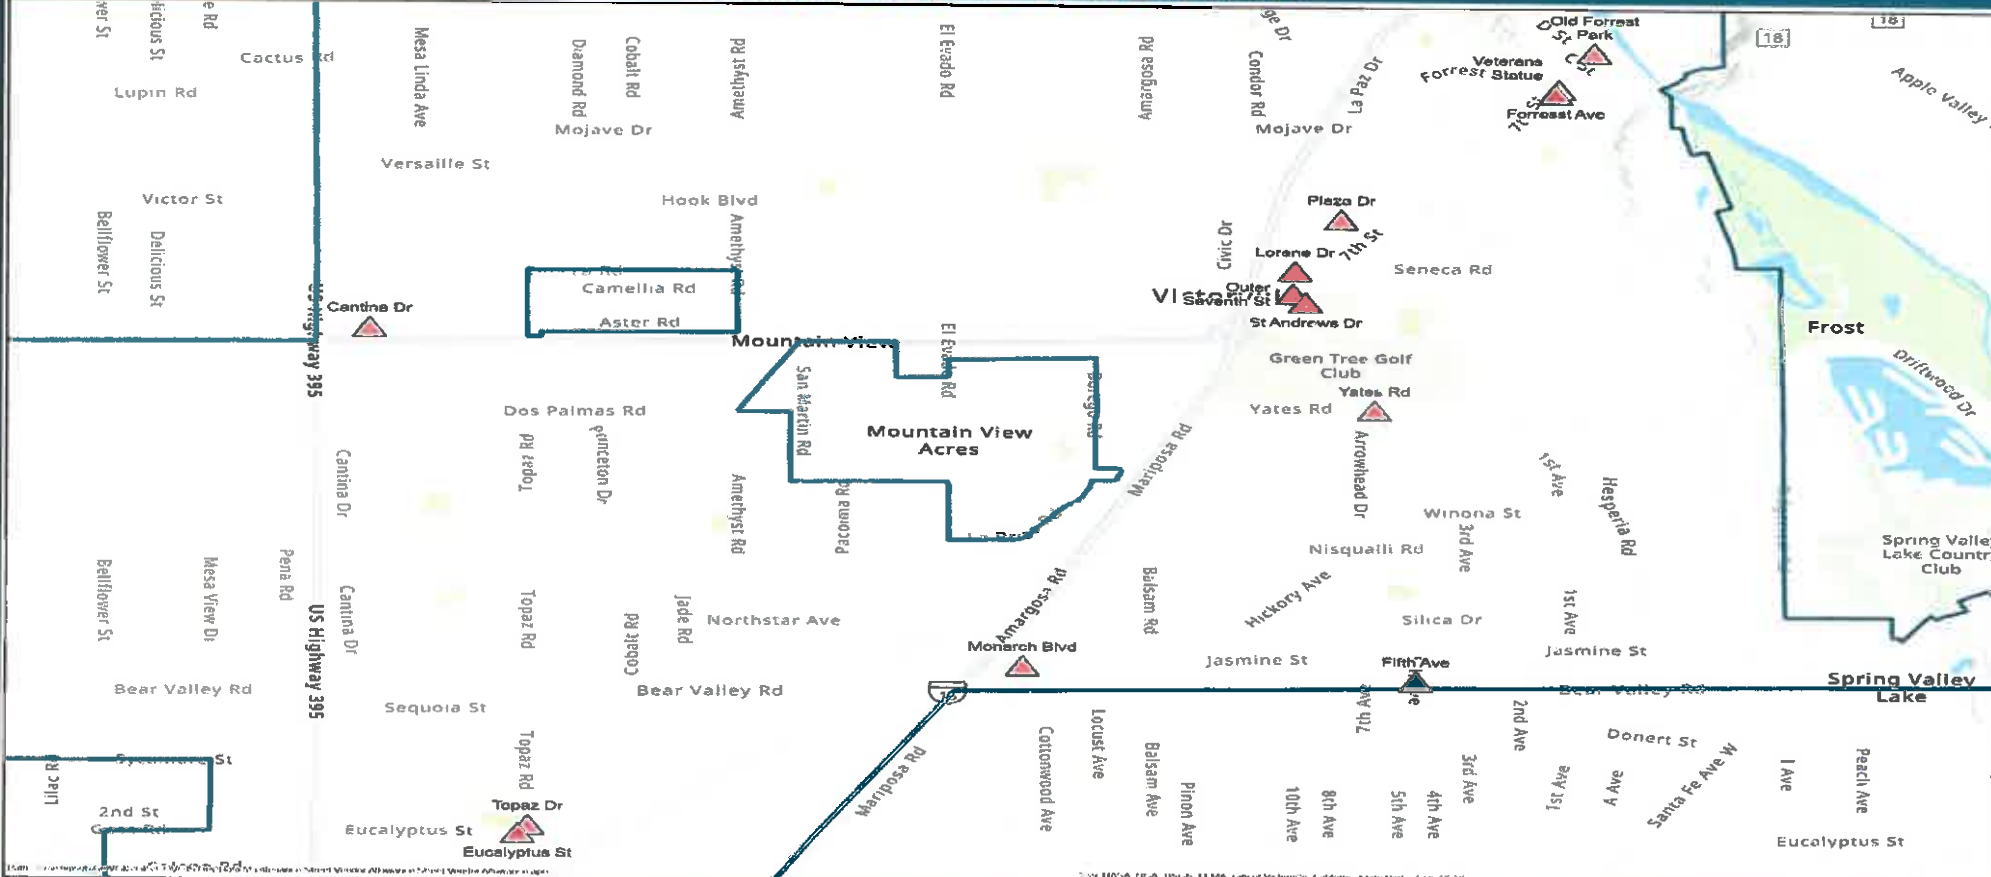

# Pre-Approved Stationary Vendor Locations

- Located near commercial locations
- Located near areas of interest to Stationary Vendors
- Available vehicle parking mitigates traffic congestion
- Larger sidewalk mitigates ADA and pedestrian access issues
- Applicants may request assessment of other locations not listed in the provided list

PERMIT	STREET	FROM	TO	COMMENTS
